

## Number Sense Answer Key 016, 3/10/2017

- |  |                           |                                       |   |
|--|---------------------------|---------------------------------------|---|
| (1) 10040  | (21) 6000                 | (41) $-\frac{4}{3}, -1\frac{1}{3}$    | (61) 90                                   |
| (2) 14   | (22) 2                    | (42) $2.5, \frac{5}{2}, 2\frac{1}{2}$ | (62) 1                                    |
| (3) 4.92   | (23) 32                   | (43) 5                                | (63) 3                                    |
| (4) 1089   | (24) 99                   | (44) 125                              | (64) 0                                    |
| (5) 8  | (25) $-.9, -\frac{9}{10}$ | (45) 108                              | (65) $-7$                                 |
| (6) 1695   | (26) 6.00                 | (46) 6                                | (66) $-2$                                 |
| (7) 594  | (27) 121                  | (47) $\frac{5}{2}, 2\frac{1}{2}, 2.5$ | (67) 27                                   |
| (8) 18.135   | (28) $\frac{7}{45}$       | (48) 196                              | (68) 0                                    |
| (9) 42   | (29) 4                    | (49) 1728                             | (69) $\frac{1}{2}, .5$                    |
| *(10) $6696 - 7400$                                      | (30) $3013 - 3329$        | *(50) $244 - 268$                     | *(70) $62 - 68$                           |
| (11) 556   | (31) 2                    | (51) 65                               | (71) 12                                   |
| (12) 72  | (32) 98                   | (52) 24                               | (72) 6                                    |
| (13) 891   | (33) 15                   | (53) 43                               | (73) $-1.25, -\frac{5}{4}, -1\frac{1}{4}$ |
| (14) 9   | (34) 169                  | (54) 2280                             | (74) $\frac{3}{4}, .75$                   |
| (15) 0   | (35) 20                   | (55) 2                                | (75) 2                                    |
| (16) $\frac{11}{18}$                                     | (36) 10                   | (56) 96                               | (76) 11                                   |
| (17) 2899  | (37) $-18$                | (57) 49                               | (77) $-5$                                 |
| (18) 108   | (38) 98765                | (58) 43                               | (78) 14                                   |
| (19) 3154  | (39) 55                   | (59) $1.5, \frac{3}{2}, 1\frac{1}{2}$ | (79) 2                                    |
| *(20) $\begin{array}{r} 2305149 \\ -2547795 \end{array}$ | *(40) $1679 - 1855$       | *(60) $9587 - 10595$                  | *(80) $287 - 316$                         |
